VISHESH KUMAR PRAJAPATI

AI Product Manager • Enterprise GenAI & Agentic Systems • LLM Platform Strategy

Chicago, IL | +1 (224) 706-5179 | vishesh09.pm@gmail.com | LinkedIn: https://linkedin.com/in/visheshkumar-prajapati-oza

PROFESSIONAL SUMMARY

Results-driven AI Product Manager with 4+ years architecting and shipping enterprise GenAI platforms and agentic AI systems at scale. Spearheaded an LLM-powered multi-agent orchestration platform at The Home Depot — slashing merchandising decision latency by 25% and generating $3M+ in incremental revenue through a 40% conversion lift across 50M+ annual customers. Deep expertise in RAG pipeline architecture, LangChain/LangGraph orchestration, LLM evaluation frameworks (RAGAS, BLEU), and responsible AI governance. Microsoft Certified AI Product Manager with proven Azure OpenAI, Copilot, and Power BI deployment experience. Track record leading cross-functional teams of 12 from 0-to-1 vision through production, backed by rigorous statistical experimentation across 20+ quarterly A/B tests.

CORE COMPETENCIES

AI & GenAI Platform: LLMs (GPT-4, Claude, Gemini) • RAG Architecture • Agentic AI & Multi-Agent Orchestration • LangChain / LangGraph • Vector DB (Pinecone, Weaviate, ChromaDB) • Prompt Engineering • NLP • Azure OpenAI • Copilot • Eval Frameworks (RAGAS, BLEU)
Product Management: Enterprise AI Roadmapping • OKRs / KPIs / PRDs • Agile / Scrum • Sprint Planning • Go-to-Market Strategy • MVP Scoping & Delivery • Stakeholder Management • Customer Discovery • JTBD • Competitive Analysis
Data & Experimentation: A/B Testing • Power Analysis • Statistical Analysis (95% CI) • Cohort & Funnel Analysis • Python • SQL • Power BI • Tableau • ML Metrics (Precision, Recall) • Drift Detection • Feature Engineering
Enterprise & Governance: AI Governance • Responsible AI & Bias Detection • SHAP / LIME Explainability • Human-in-the-Loop (HITL) Design • Audit Trails • Safety Guardrails • GDPR • HIPAA • MiFID II • Model Rollback Protocols • CI/CD for ML • MLOps

PROFESSIONAL EXPERIENCE

AI Product Manager | The Home Depot — Chicago, IL | *Aug 2024 – Present*
Enterprise GenAI Platform • Agentic AI • LLM Orchestration • Personalization • MLOps • AI Governance

- Architected and shipped an enterprise multi-agent orchestration platform (GPT-4, Claude, Gemini) with RAG architecture and LangChain/LangGraph pipelines — cut merchandising decision latency 25% for 2,000+ store operations teams.
- Spearheaded a GenAI-powered personalized recommendation engine (collaborative filtering, embedding models, semantic search) — drove $3M+ incremental revenue and lifted conversion 28%→39% (+40%) across 50M+ annual customers in 6 months.
- Orchestrated a rigorous A/B experimentation framework (power analysis, 95% CI) across 20+ quarterly tests — validated $500K annual inventory optimization via ML-driven promotional pricing; methodology adopted by 5 product teams.
- Engineered reusable AI platform infrastructure (prompt templates, LLM eval frameworks, vector DB pipelines, model deployment on AWS SageMaker & Vertex AI) — accelerated feature development velocity 30% across 5 teams.
- Instituted responsible AI governance program: bias detection, SHAP explainability dashboards, HITL validation, and audit trails — achieved 98% compliance and reduced model rollback incidents 60%.
- Led cross-functional team of 12 (engineering, data science, UX) — authored 30+ PRDs, aligned OKRs, delivered MVP in 4 months; drove C-suite AI strategy visibility via 15+ KPI Power BI dashboards.

Product Manager — AI/ML & Analytics | Accenture — India | *Sept 2020 – Aug 2023*
Enterprise Financial Platform • Embedded ML Models • B2B SaaS • Regulatory Compliance (GDPR, MiFID II)

- Launched enterprise Financial Portfolio Insights Platform with embedded ML models (ESG scoring, predictive risk analytics, asset optimization) to 50,000+ users — improved client retention 15% through AI-driven personalized recommendations.
- Defined enterprise AI product roadmap balancing GDPR and MiFID II compliance, technical feasibility, and user needs — reduced release delays 10% through proactive risk management across data quality and integration workstreams.
- Drove feature prioritization via quantitative/qualitative research across 1,000+ customers (Qualtrics, usage analytics) — shaped backlog for risk scoring, asset allocation, and portfolio rebalancing AI tools.
- Spearheaded post-launch AI model monitoring and P1 incident response — accelerated resolution 35%, reduced P1 incidents 40%; replaced manual Excel workflows with Tableau dashboards enabling real-time advisor decisions.

TECHNICAL SKILLS

AI / LLM: GPT-4 • Claude • Gemini • Azure OpenAI • Vertex AI • AWS Bedrock • Copilot • OpenAI API | **Orchestration:** LangChain • LangGraph • RAG Pipelines • Vector DB (Pinecone, Weaviate, ChromaDB) • Prompt Engineering
MLOps: AWS SageMaker • Model Deployment • Drift Detection • Model Registry • CI/CD for ML • SHAP • LIME | **Data & BI:** Python • SQL • Tableau • Power BI • A/B Testing • Statistical Modeling
Cloud: AWS • GCP • Azure (AI Studio, OpenAI Service, Power BI)

CERTIFICATIONS

Microsoft AI Product Manager Professional Certificate | Microsoft / Coursera | Feb 2026
Enterprise AI Strategy • Azure OpenAI • Copilot • Power BI • Secure AI Lifecycle • GTM Analytics

EDUCATION

M.S. Data Science | DePaul University, Chicago
B.Tech Information Technology | Ganpat University, India
